Applications

- Gate control
- Door control
- Lighting control

Receivers

FEATURES

The type 106 transmitter is a compact, yet extremely robust hand-held unit, particularly useful in industrial applications where its weatherproofing and rough handling capabilities are required. It can be clipped onto a belt or pocket, or to a suitable mounting bracket to allow use on fork lift trucks etc. The IP54 rated case and ceramic pushbutton ensure that this is one of the most reliable and robust units available.
